

SAS/SATA II

APPLICATIONS

- Healthcare/Medical
- HPC (High Performance Computing)
- Digital Video
- Security
- JBOD/RAID
- Dataforms

A versatile, flexible, low cost SAS to SAS/SATA II JBOD. When connected to a PCI based RAID Card, it becomes a high performance low cost RAID solution. The internal SAS expanders comply with the SAS standard which allows for point to device connections, included device bandwidth, high availability and reliability. Ease of upgrades, up to 120 drives off 1 host port.

- 9 SAS/SATA II drive bays
- Add up to 124 drives
